FISCAL MANAGEMENT GOALS

The quantity and quality of learning programs are related to the funding provided and the effective, efficient management of those funds. It follows that the District's purposes can best be achieved through prudent fiscal management.

Due to resource limitations, there is sometimes a temptation to operate so that fiscal concerns overshadow the educational program. Recognizing this, it is essential that the Board take specific action to make certain that education remains central and that fiscal management contributes to the educational program. This concept is incorporated into Board operations and into all aspects of District management and operation.

As trustees of the community's investment in the facilities, materials and operational funds, the Board has a fiduciary responsibility to ensure that the investment is protected and used wisely. Competent personnel and efficient procedures are essential for sound management of fiscal affairs. The Board expects that the Superintendent and the Treasurer keep it informed through both oral and written reports on the fiscal management of the District.

With the cooperation of the Treasurer and assistance from other designated personnel, the Superintendent is expected to develop an efficient and effective procedure for fiscal accounting, purchasing and the protection of plant, grounds, materials and equipment through prudent and economical operation, maintenance and insurance.

The Board seeks to achieve the following goals to:

1. engage in thorough advance planning, with staff and community involvement, in order to develop budgets and to guide expenditures to achieve the greatest educational returns for the dollars expended;
2. establish levels of funding which provide high quality education for the District's students;
3. use the best available techniques for budget development and management;
4. provide timely and appropriate information to all staff with fiscal management responsibilities and
5. establish effective procedures for accounting, reporting, business, purchasing and delivery, payroll, payment of vendors and contractors and all other areas of fiscal management.

The Board collects and assembles the information necessary to discharge its responsibility for the fiscal management of the District and to plan for the financial needs of the educational program. The Board strives toward maintaining both short and long-range projections of District financial requirements.

Accordingly, the Board directs the Treasurer to:

1. include cost estimates in all ongoing financial requirements;
2. prepare a long-range year-by-year plan for the maintenance and replacement of facilities and equipment;
3. maintain a plan of anticipated local, State and Federal revenues;
4. report to the Board any serious financial implications that emerge from the District's ongoing fiscal planning.

In addition, the Board directs the Treasurer to maintain annually a detailed five-year projection of estimated revenues and expenditures.

ANNUAL BUDGET AND APPROPRIATIONS MEASURE/
BUDGET MODIFICATION AUTHORITY

Budget

The purpose of the annual tax budget is to identify adequate financial resources for the education program and to provide a basis for accountability in fiscal management. The District budget is also the legal basis for the establishment of tax rates.

The annual tax budget is regulated and controlled by State law and requirements of the county budget commission. The Board may establish additional budget requirements for funds at its disposal.

The Board directs the Treasurer to present the tax budget to the Board along with all available information associated with each fund in sufficient time to allow for proper analysis and discussion prior to the hearing.

With an affirmative vote of the majority of the county budget commission, including the County Auditor, the requirement that the Board adopt a tax-budget may be waived. Therefore, the Board directs the Treasurer to prepare the tax budget in compliance with the requirements of the Wayne County Auditor, the Ohio Revised Code, and the State Auditor's Office.

The Treasurer, Superintendent and their staffs are responsible for the preparation of the annual budget and presentation of the budget to the Board for adoption.

Appropriations

As permitted by law, at the start of the fiscal year, the Board may pass a temporary appropriations measure to provide for meeting the ordinary expenses of the District until such time as the Board approves the annual appropriations resolution for the year, which is not later than October 1. If by October 1 the county budget commission has not certified all amended certificates of estimated resources to the Board of Education (or submitted a certification that no amended certificates are necessary), the Board can delay action on the annual appropriation measure until such time as the certificates are received.

The Treasurer files both the temporary and final appropriations measures at the proper times with the office of the County Auditor.

The Board shall adopt as part of its annual appropriation measure a spending plan (also known as the Five-Year Forecast), or in the case of an amendment or supplement to an appropriate measure, an amended spending plan setting forth a five-year projection of revenue and expenditures of the General, Emergency, DPIA, and any Debt Service related to the General Fund. A copy of the annual appropriation measure and any amendment or supplement to it and the spending plan or amended plan shall be submitted to the Superintendent of Public Instruction and shall set forth all revenues available for appropriation by the District during such year and their sources; the nature and amount of expenses to be incurred during the year; the outstanding and unpaid expenses on the date the measure, amendment or supplement is adopted; the dates by which such expenses must be paid; and any other information the Superintendent requires.

The plan or amended plan shall be presented in such detail and form as the Superintendent of Public Instruction prescribes.

The Superintendent/designee notifies each school administrator and/or department head of the allocations approved for expenditure.

Budget Modification

Appropriations approved by the Board at the fund level may receive a line item increase as long as there is a corresponding decrease. Any increase in the amount of the appropriation measure or transfers of funds permitted by law from major fund to major fund require Board approval and may require approval from the Court of Common Pleas.

Transfers Among Categories

It is the responsibility of the Superintendent and the Treasurer to examine the appropriations categories and make the necessary recommendations to the Board.

(Five-Year Forecast)

Budget planning is an integral part of program planning so that the annual operating budget may effectively express and implement all programs and activities of the District. Budget planning is a year-round process involving broad participation by administrators, teachers and other personnel throughout the District.

The Superintendent and Treasurer are responsible for preparing the five-year forecast for the Board's approval. The forecast is for the current fiscal year and four years beyond.

The five-year forecast is prepared twice a year and filed with the Ohio Department of Education (ODE). The initial filing is due on or before October 31 and an update by May 31. The five-year forecast is updated as often as necessary in order to communicate significant changes in the District's financial position.

Chippewa Local School District, Doylestown, Ohio

INVENTORIES (Fixed Assets)

The Board, as steward of this District's property, recognizes that efficient management and full replacement upon loss requires accurate inventory and properly maintained property records.

The District conducts a complete inventory every five years, by physical count, of all District-owned equipment and supplies. For purposes of this policy, "equipment" means a unit of furniture or furnishings, an instrument, a machine, an apparatus or articles which retain shape and appearance with use, is nonexpendable and does not lose its identity when incorporated into a more complex unit.

This District maintains a fixed asset accounting system. The fixed asset system maintains sufficient information to permit:

1. preparation of year-end financial statements in accordance with generally accepted accounting principles;
2. adequate insurance coverage and
3. control and accountability.

Each building and additions to buildings are identified by location or name and are described in detail (e.g., size, number of floors, square footage, type of construction, etc.) with the value shown for all individual structures.

Fixed equipment is inventoried by building, floor and room name or number; each item is to be listed individually. (Leased equipment that the District will eventually own must be inventoried.)

Movable equipment is inventoried by building, floor and room name or number; each item is to be listed individually. Any item that has a model number or serial number has that number noted in the description for full identification. All items assigned to a building are the building administrator's responsibility.

All equipment purchased, after the initial inventory, as capital outlay or replacement with a cost of \$1,000 or more and with an estimated useful life of five years or more is tagged and made part of the equipment inventory. For fixed asset reporting purposes, all equipment in excess of \$5,000 is used.

A listing of all equipment is maintained for each building and department. This listing is updated annually by the close of the school year, or not later than the second Friday in June of each year. This updated listing is then submitted to the Treasurer's office for audit purposes.

A physical inventory of supplies is taken at the building level at the close of the school year, or not later than the second Friday in June of each year. This updated listing is then submitted to the Treasurer's office for audit purposes.

The Treasurer is assisted by the principals, directors, supervisors and certificated/licensed and classified staffs in the performance of this function.

PURCHASING

The function of purchasing is to serve the educational program by providing the necessary supplies, equipment and services. The Board's authority for the purchase of materials, equipment, supplies and services is extended to the District administration through its adoption of the annual appropriations resolution.

The Board declares its intention to purchase competitively without prejudice and to seek maximum educational value for every dollar expended. The purchase of items and services found on lists from the appropriations resolution requires no further Board approval, except in those instances in which, by law or Board policy, the purchases or services must be put to bid.

"Blanket" Certificates

The Treasurer may issue "blanket" purchase orders (certificates) for a sum not exceeding an amount established by resolution of the Board against any specific line item account over a period of time, not to extend beyond the end of the fiscal year in which it is issued. Only one "blanket" purchase order (certificate) may be outstanding at any one particular time for any one particular line item appropriation.

"Super Blanket" Certificates

The Treasurer may issue "super blanket" purchase orders (certificates) for any amount for expenditures and contracts from a specific line-item appropriation account in a specified fund for most professional services, fuel, oil, food items and any other specific recurring and reasonably predictable operating expense. Such a purchase order (certificate) shall not extend beyond the fiscal year.

The acquisition of supplies, equipment and services is centralized in the business office, which functions under the supervision of the purchasing agent through whose office all purchasing transactions are conducted.

The Board assigns to the purchasing agent the responsibility for the quality and quantity of purchases made. The Treasurer is charged with the responsibility to ensure that all purchases do not exceed appropriations and that they are consistent with the approved educational goals and programs of the District.

A completed DMA form with no positive indications that material assistance has been provided to a terrorist organization is required of each private person or entity with whom the Board intends to enter into a contract that amounts to an aggregate of greater than \$100,000 annually.

A private person or entity with whom the Board enters into frequent contracts may apply for pre-certification. Pre-certification is specific to the District and is effective for one (1) year at a time.

Lease-Purchase Agreements

Lease-purchase agreements entered into by the Board shall be in accordance with R.C. 3313.375. Such agreements shall be a series of not more than thirty one-year renewable lease terms, after which time ownership is transferred to the Board if all obligations of the Board under the agreement have been satisfied.

PURCHASING

It is the policy of the Board that when funds are available, all purchases contemplated within the current budget and not subject to bid be made in a manner that tends toward the insurance of maximum value for the District.

All purchases that are within budgetary limits and were originally contemplated within the appropriations may be made upon authorization of the Treasurer.

Before the originator places a purchase order, approval must be obtained from the supervisor, who shall check as to whether the proposed purchase is subject to bid, whether sufficient funds exist in the budget, and whether the material might be available elsewhere in the District.

The Treasurer shall solicit quotations from independent sources for the supplies, equipment or services desired in all cases of emergency or when quotes cannot be obtained. Should quotes not be obtained, the originator shall attach a statement explaining why this is so. All quotations received shall be attached to and retained with a copy of the resulting purchase order.

Purchase of Equipment and Supplies

It is the intent of the Board that purchases should be made primarily on the basis of such consideration as quality, original cost, cost of maintenance and repair services available.

Under no circumstances will any purchases be made by the Board for individuals, groups, or organizations other than for the express use by the schools as authorized by the Board.

No invoices will be honored for payment by the Board unless the following information is provided and the procedures carried out:

1. requisition of proper form, dated;
2. purchase of material, supplies or labor requisitioned;
3. quantity needed;
4. detailed specifications and description of material, supplies or labor needed;
5. estimated cost;
6. signature of person originally making requisition;
7. approval of the principal or supervisor;

8. approval of the Superintendent;
9. approval of purchase order properly numbered, dated and signed by the Superintendent and the Treasurer and
10. receipt of correct material, supplies or labor.

The Treasurer's Office should be notified immediately if incorrect or defective material, supplies or labor is received.

Procedure of Bids

The Superintendent and/or Treasurer of the Board shall secure quotations on purchases of more than \$10,000 except in unusual cases. Sealed bids shall be required by law on any single purchase exceeding \$25,000 except in cases of urgent necessity.

Insurance

The Treasurer of the Board shall present annually to the Board for its approval a review of the school's insurance program on buildings, equipment and buses with recommendations for any changes in the amount or type of coverage.

Competitive bids shall be encouraged whenever practical on all insurance purchased by the Board.

(Approval date: January 24, 2011)

BIDDING REQUIREMENTS

Contracts for construction or demolition of buildings or for any improvements or repairs, which exceed \$25,000 are let only after bids are solicited and received in compliance with law. However, if the Board enters into a shared savings contract for energy conservation measures, competitive bidding is not required. The Board may also enter into an installment payment contract for the purchase and installation of energy conservation measures and competitive bidding does not need to be utilized if two-thirds of the entire Board adopts a resolution stating that competitive bidding does not apply to the project.

If feasible, all purchases over \$10,000.00 but under \$25,000 will be based on price quotations submitted by at least three vendors. These quotations are treated confidentially until the deadline for filing is past; thereafter, they are public information.

The Superintendent/designee assembles the proper specifications and makes the necessary arrangements for public bidding and price quotations. The Treasurer receives the bids and price quotations and records them. The Superintendent makes his/her recommendations to the Board. Upon approval by the Board, he/she processes purchase orders to those bidders awarded contracts and notifies the other bidders of the results of the bidding.

PURCHASING PROCEDURES

Monies under the jurisdiction of the Board may not be expended except upon a warrant drawn against a specific appropriation and against a specific fund. Therefore, no contract or purchase order for the expenditure of money will be made unless there is attached to it a certificate of the Treasurer certifying that the amount required to meet the contract or purchase order has been appropriated and is in the treasury, or is in the process of collection, and is free from previous encumbrance.

Any contract or purchase order issued without such a certificate attached is void, except as the law allows later issuance within 30 days of the certificate and except that, if the amount involved is less than \$3,000, the Treasurer may authorize it to be paid without the ratification or affirmation of the Board. Under certain conditions, the law also allows the Treasurer to issue blanket certification, subject to limitations of time and amount as set by law.

Purchasing procedures are designed to ensure the best possible price for the desired products and services. Procedures for purchasing are developed to require that all purchases are made on properly approved purchase orders and that, for items not put up for bid, price quotations are solicited.

In compliance with the State Use Law, the Board directs the administration to determine if products and services needed by the District may be purchased from the Ohio Industries for the Handicapped. If applicable, the District will purchase products and/or services from the OIH.

Special arrangements may be made for ordering perishable and emergency supplies.

CREDIT CARDS

The Board recognizes the efficiency and convenience afforded the day-to-day operation of the District through the use of credit cards under the supervision of the Treasurer. However, credit cards are not to be used to circumvent the general purchasing procedures required by State law and Board policies.

The Board authorizes the use of credit cards in the following manner.

Credit Cards

1. All credit cards issued to and in the name of the District shall be held and supervised by the Treasurer and used only for approved District-related activities.
2. Credit cards may be used for District-related transportation, reservations and expenses, conference registrations and hotel reservation guarantees for the Board and staff.
3. If monies are budgeted and deposited with the Treasurer in advance, credit cards may be used by school employees for student trips and competitions for safety and security reasons.

CREDIT CARDS

Credit cards may be used for the following purposes.

1. School business travel, meetings, lodging and meals for out-of-District meetings or seminars are subject to the reimbursement limits established by the Board.
2. Gratuities are permissible only when card use is for group purchases and the tip is automatically added to the bill.
3. Purchases from vendors that require a credit card as form of payment do not supersede the requirement of preapproval of a purchase order for the purchase. The use of the credit card for electronic commerce must be preapproved by the submission of a purchase order prior to purchase.
4. The use of the credit card over the Internet must be safeguarded at all times. All vendors must be preapproved for use and must show sufficient proof of being a legitimate business entity. All purchases over the Internet are the sole responsibility of the Board's authorized buyer in the event of business fraud.
5. If the use of a tax-exempt form is not possible, the expenditure is allowed. The person using the credit card should take along the appropriate tax exemption form so that sales tax is not charged.

Upon returning from an approved business trip, an employee shall submit all original itemized invoices and original credit card charge receipts to the Treasurer's office. Credit card statements will not suffice as invoices. Credit card statements will be mailed directly to the Treasurer's office. Any late fees assessed to the District due to an employee failing to submit invoices and credit card receipts on a timely basis are the responsibility of the employee. Receipts for meals must include the names of all individuals for whom meals were provided and the purpose of the meeting.

The use of the credit card is prohibited for the following items:

1. purchase of personal goods or services for an administrator, an administrator's spouse, children or anyone employed or not employed by the Board and attending a District business function;
2. payment of any fines, penalties or personal liabilities incurred by the administrator or anyone else;
3. alcoholic beverages or tobacco;

4. fuel for use in a personal vehicle;
5. entertainment expenses, including pay-per-view movie charges and/or
6. cash advances.

Persons using a credit card for personal, nonauthorized purposes or undocumented expenditures shall be held personally responsible for those expenditures. Abuse of the credit card is subject to disciplinary procedures, including termination.

The use of a credit card does not supersede the required completion of a professional leave form when applicable. These procedures also dictate the reimbursement procedures of the Board.

PAYMENT PROCEDURES

All claims for payment from District funds are processed by the Treasurer. Payment is authorized against invoices and supporting documents verifying receipt, supported by approved purchase orders or in accordance with salaries and salary schedules approved by the Board.

As an operating procedure, the Board has adopted an annual resolution authorizing payment by the Treasurer for debts or claims. The Board receives a list of bills paid the previous month.

The Treasurer is responsible for ensuring that appropriate allocations are observed and that total expenditures do not exceed the amounts appropriated for all items.

PAYROLL PROCEDURES

The most substantial payment of public funds for the operation of the District is that which is made to the employees of the Board for services rendered. To ensure that each person so compensated is validly employed by this District and that the compensation remitted fairly represents the services rendered, this policy is promulgated.

Employment of all District personnel whether by the year, term, month, week, day or hour in contract, temporary or substitute form must be approved by the Board.

Each motion of the Board to employ or reemploy on a contracted basis (i.e., for a fixed period of time) shall include the name of the individual, the position title, the salary to be paid over the term of the contract, the period of employment, the wage guide identification, whether on a limited or continuing contract basis, and the special activity assignment.

Each motion of the Board to employ on a temporary basis (i.e., by the hour or day) shall include the name of the individual, the position title and the rate of pay.

All substitute employees shall be placed on an approved list by the Board before they can be assigned substitute duty by the administration. Said list shall include the name of the substitute, the type of duty for which he/she may be utilized and the period of time during which such authorization is valid.

The Board shall take note in its minutes of all actions with regard to resignation, retirement, death or discharge of all employees or the non-reemployment of a teacher. Each such action shall include the name of the employee, the date upon which salary or wages will terminate and the position formerly held.

Sign-in and sign-out procedures are required on a daily basis of all teachers and other noninstructional staff members, custodial-maintenance employees, bus drivers, and cafeteria workers in order to verify days and hours worked for payment purposes.

SALARY DEDUCTIONS

Except for deductions for absence not covered by paid leave or those required by law, salary deductions are allowed only upon authorization by the employee and approval by the Board.

The following deductions are required:

1. federal, state and local income tax;
2. employee's share of retirement contribution according to current rate as set by law;
3. unexcused or excused absence not covered by paid leave and
4. Medicare deduction in compliance with Federal law.

If requested by employees, the Board will implement payroll deductions for the Ohio Deferred Compensation Program. Other deductions are in accordance with negotiated agreements and/or Board policy.

The District may limit the right of an individual employee to designate the agent, broker or company to write tax-sheltered annuities by requiring designation by at least one percent of the District's full-time employees or at least five, whichever is greater, except that a District may not require that a company be designated by more than 50 employees.

When a teacher is absent from duty and there is no leave applicable, the absence is unauthorized. The salary deduction for each day of unauthorized absence is based on the current annual salary divided by the number of teacher workdays in the official school calendar as adopted by the Board. In no case will only the salary of the substitute be deducted or a teacher be allowed to employ and pay for the substitute.

When an employee is absent from duty and there is no leave applicable, the absence is unauthorized. The salary deduction for an unauthorized absence is made on a per diem basis in accordance with the required work year for that particular job classification.

Unauthorized absences are not condoned. Repeated unauthorized absences may result in the employee being disciplined.

SALARY DEDUCTIONS

The Board is permitted to act in behalf of individual employees to deduct a certain amount from the employee's paycheck and remit to an agent designated by the employee. It is the purpose of this policy to designate those purposes not otherwise mandated by law for which the Board is willing to act in behalf of an employee and to specify the fee for so doing.

The Board authorizes in accordance with the provisions of law cited herein that deductions be made from an employee's paycheck upon proper authorization on the appropriate form for the following purposes:

1. Federal and State income tax;
2. Social Security or retirement contribution;
3. municipal income tax;
4. school district income tax;
5. School Employees Retirement System;
6. State Teachers Retirement System;
7. savings in a chartered credit union;
8. contributions to charitable corporations not-for-profit and community fund organizations;
9. payment of dues to labor or other organizations for which purpose a fee may be charged to defray the cost of making the deduction;
10. payment of group insurance premiums for a plan in which at least 10% of the District employee participates and
11. savings in a tax exempt shelter annuity upon the terms and conditions cited in law.

The Treasurer shall make such deductions as each employee may properly authorize for those matters approved herein by the Board and may make additional deductions authorized by law.

To the extent permitted by law and in accordance with the procedures set forth below, the Board declares its willingness to purchase or procure tax-sheltered annuities for its employees who request that such annuities be purchased through payroll deduction. Specifically, employees may request in writing that the Board purchase or procure a tax-sheltered annuity for them in exchange for the employee taking a reduction in salary with respect to amounts earned after the effective date of such written notice – reductions in salary shall commence 30 days after the Treasurer receives the employee's written notice. The Board shall use a corresponding amount to purchase the annuity for such employee from any licensed agent, broker or company authorized to transact the business as specified in law in accordance with Section 403(B) of the Internal Revenue Code. However, it shall be clearly understood that the Board's only function shall be the deduction and remittance of employee funds.

In any case where the employee designates the agent, broker or company through whom the Board shall arrange for the placement or purchase of the tax-sheltered annuity, the agent, broker or company must execute a reasonable agreement with the Board protecting the Board from any liability attendant to procuring the annuity (i.e., a "hold harmless").

If the District is required to provide the IRS an Audit of Annuity Accounts Report and there are fewer than five employees who have a contract with the agent, broker or company placing or purchasing the tax-sheltered annuity, the employees selecting that agent, broker or company shall split the annual fee for preparation of the report up to \$50 each.

In cases when an employee is absent from duty and there is no sick leave applicable, or when the absence is unauthorized, the salary deduction for each day of absence will be based on the employee's current salary divided by the number of work days required in the official school calendar for each job classification.

EXPENSE REIMBURSEMENTS

District personnel who incur expenses in carrying out their authorized duties are reimbursed by the District upon submission of a properly filled out and approved voucher with supporting receipts required by administrative regulations. Expenses may be approved and incurred within the limits of budgetary allocations for the specific type of expense.

When official travel by a personally owned vehicle is authorized, mileage payment is made at the rate currently approved by the Board and within the limitations of Federal law.

The Board prohibits employees and Board members from accepting, soliciting or using the authority or influence of his/her position to secure, for personal travel, a discounted or “frequent flyer” airline ticket or other benefit from an airline if he/she has obtained or earned the ticket on official travel. Any miles earned become the property of the District and must be used for future official travel by District employees or the Board.

A traveler on official school business is expected to exercise the same care in incurring expenses as a prudent person exercises in traveling on personal business. Excessive costs, such as those caused by circuitous routes or luxury services or accommodations, are not considered prudent, nor are they accepted for reimbursement.

1. Travel Requests: These must be submitted in advance through the appropriate administrators to the Superintendent or his/her designee.
2. Transportation: All modes of transportation are authorized consistent with the requirements of the assignment and the efficient and economic conduct of official business. Travel is by the most direct route.

An explanation must be given, such as the origin and destination of the call. A receipt should be obtained and submitted to document calls and/or shipment

B. Conference Registration Fees: Conference and convention registration fees are reimbursable as a miscellaneous expense on the travel expense voucher.

CASH IN SCHOOL BUILDINGS

Monies collected by employees and by student treasurers are handled with prudent business procedures, in order to demonstrate the ability of employees to operate in that fashion and to teach such procedures to our students.

State law requires a proper receipting and depositing of all public monies. Therefore, all monies collected shall be receipted, accounted for and deposited in the bank on the day of collection.

The Treasurer provides for making bank deposits after regular banking hours in order to avoid leaving money in a locked school safe.

SCHOOL PROPERTIES DISPOSAL

The Board believes that the efficient administration of the District requires the disposition of property and goods no longer necessary for the maintenance of the educational program or the operation of the District.

The Board recognizes that most unused property of the District has value and that it may be practical to retain such property for a period of time. Once property is no longer needed for school purposes currently or in the future, it should be slated for disposal at the Superintendent's discretion. State law governs the retention and method of disposal of the Board's property. Therefore, the Board follows the procedures required by the various statutes governing the disposal of real or personal property.

Before the administration may sell school property, the Board must declare the property to no longer be needed for school purposes. The Board follows the procedures set forth in State law for the disposal of real or personal property at the minimum dollar value set forth in the statute on the date the Board decides to dispose of the property. The Board is first required to sell its real property to start-up community schools operating in the District. If the community school is not interested in buying the property, the Board can sell its real or personal property at a public auction and follow specific statutory requirements if the property exceeds \$10,000 in value. If this amount is changed by the legislature, the Board and administration's responsibility changes automatically to reflect the new minimum statutory dollar value.

The Board directs the periodic review of all District property and authorizes the disposition by sale, donation, trade or discard of any property not required for school purposes.

Disposal of Property Valued at Less Than the Dollar Value Set Forth in State Law

For the disposal of property which is not governed by the Ohio Revised Code or administrative regulations, the administration is required to follow these procedures.

1. The Superintendent determines that the value of the property is less than the value set forth in State law. The property is valued pursuant to a reasonable method as determined by the Superintendent.
2. The Board is notified when real or personal property is no longer needed for school purposes and directs that the property be sold.
3. The Superintendent sells the property to a start-up community school or by bids, general sale, negotiated sale or by trade as determined by the Superintendent or the Board on an individual basis.
